

What is the NAB so afraid of? In my opinion, there's room in the radio wave universe for AM, FM, AND now, HALLELUJAH!! -- Satellite Radio (both XM & Sirius).

As a long time radio devotee (and very happy & satisfied XM subscriber) I have 48 stations programmed into my car stereo receiver (6 AM, 12 FM and 30 XM) and I am THRILLED with my freedom of listening choice!! I most certainly do NOT cotton to the idea of any available choice (news, music, information, entertainment, weather, traffic, WHATEVER) being curtailed or taken away.

So "Nay" to media silencing & "Yea" to Freedom & Availability of CHOICE!!!!
